

CARYSIL
sommelier

keeps drinks
chilled at
the perfect
temperature

a bottle needs to be two things
. . . at the right temperature
and within reach . . .

The Carysil Sommelier integrates into any worksurface to keep a chilled bottle at its opening temperature, without any ice or drips.

Simply take a cold bottle from the fridge, pour a glass and pop it in the Carysil Sommelier, no need for ice. Perfect for any chilled drinks from champagne, white or rosé wines to red wines with our Sommelier Red Boost which has a temperature mode to keep red wines at their ideal temperature of 12-18°C.

add a touch of luxury . . .

to your home with the Carysil Sommelier or Sommelier Red Boost and make it the centre of enjoying good times with friends and family.

With touch control lighting to suit any mood or time of the day it can be installed into any worksurface in the kitchen, home bar or garden room . . . even a bathroom (with an appropriate power supply) . . . the options really are endless.

crowns
available in a
choice of colours

CURVED

A timeless classic.

A seamless curve in a
choice of finishes.

▪ We call this part the 'crown'

▪ The rest of the sommelier is hidden under the
worksurface, (and it's smaller than a sheet of A4 paper!)

SOMMELIER

Maintains the perfect temperature of any chilled bottle & features touch control lighting to suit any mood or time of day.

■ *The default LED colour is white*

SOMMELIER RED BOOST

Comes with dynamic lighting and two extra temperature modes.

- Red wine mode to keep your reds at their ideal temperature of 12-18°C.

- Boost mode will chill your drink by 3-4°C over half an hour.

▪ In Red Wine mode the LED colour changes to soft red and will then return to your chosen colour
