chilled at  
the perfect  
temperature

## sommelier WINE COOLER

**a bottle needs to be two things . . .  
at the right temperature and within reach**

The Carysil Sommelier integrates into any worksurface to keep a chilled bottle at its opening temperature, without any ice or drips.

Simply take a cold bottle from the fridge, pour a glass and pop it in the Carysil Sommelier, no need for ice. Perfect for any chilled drinks from champagne, white or rosé wines to red wines with our Sommelier Red Boost which has a temperature mode to keep red wines at their ideal temperature of 12-18°C.

**add a touch of luxury . . .**

to your home with the Carysil Sommelier Red Boost and make it the centre of enjoying good times with friends and family.

With touch control lighting to suit any mood or time of the day it can be installed into any worksurface in the kitchen, home bar or garden room . . . even a bathroom (with an appropriate power supply) . . . the options really are endless.

## CURVED

A timeless classic.

A seamless curve in a choice of finishes.

■ We call this part the 'crown'

■ The rest of the sommelier is hidden under the worksurface, (and it's smaller than a sheet of A4 paper!)

Set the mood, lighting and temperature of your Carysil Sommelier remotely

## Download the Carysil Sommelier App for added features

Set the mood by changing the ambient lighting in your crown remotely through our App.

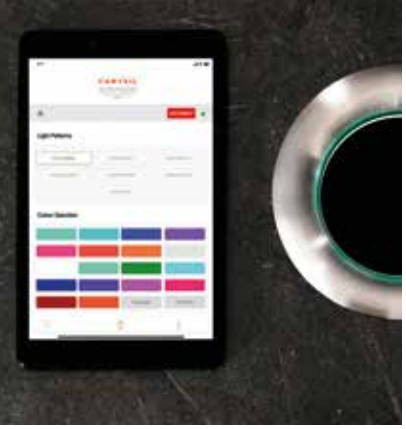

In addition to the standard three temperature settings you can set the temperature to your requirements through our App by using the slide bar.

Check the status of the current temperature in the chamber and the target temperature.

Register your product warranty, set password and personal details and receive software updates through our App.
