

Engineered for durability, inspired by nature.

Aravalli Sintered Stone is Carysil's most advanced surface. Named after the Aravalli mountain range, which runs through Carysil's manufacturing home of Gujarat, India.

Working with the natural strength of minerals and refined through advanced engineering, Aravalli is a surface designed for lasting performance. Durable by nature and sustainable by design, it provides a reliable foundation for everyday use.

**More than a kitchen surface, Aravalli sets the
standard for everyday living.**

Taj Mahal Worksurface,
CARYSIL Sensa Series Sink
CARYSIL Quilt Twist 4-in-1 Hot Tap
CARYSIL Induction Hob

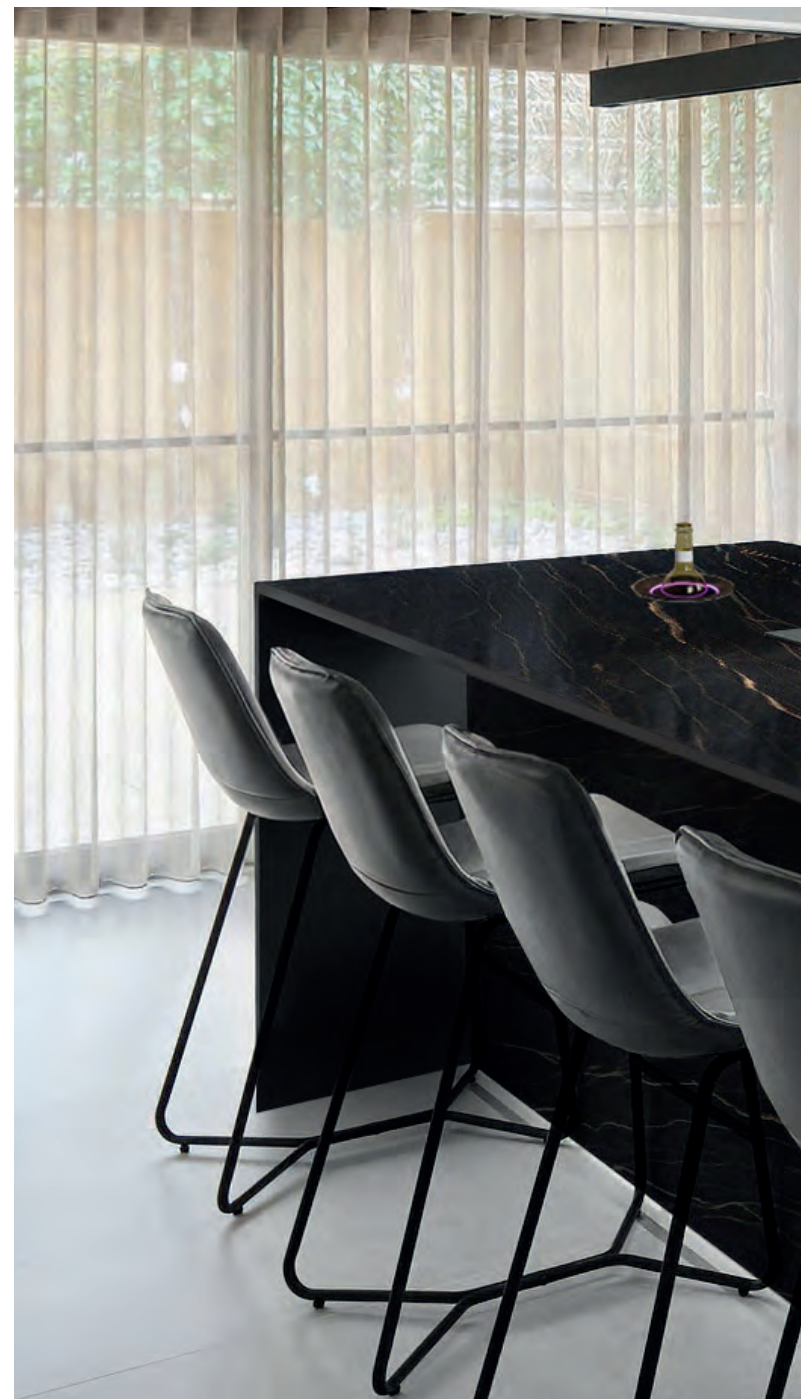

A Complete Seamless Service

CARYSIL delivers a fully fitted, end-to-end service. The moment an order is placed, our expert team manages the entire process. We will visit the home and precisely template the kitchen, capturing every exact measurement. Just 5 days later, we return to install the custom, pre-fabricated surface, ensuring a seamless, stress-free transformation with zero compromise on precision.

Aravalli is a 100% natural mineral surface, created through a high-pressure, high-heat process known as Sintering. We fuse premium clays, feldspars and natural pigments at pressures of up to 400 BAR and temperatures reaching 1,200°C. This intense process creates an exceptionally hard, dense and non-porous slab that is effortlessly designed to handle the chaos of a modern kitchen.

The collection is available in 18 stunning decors, to suit any design aesthetic, covering both tactile matt and elegant satin finishes. For a truly premium feel, Aravalli features a substantial 20mm profile as standard, with 12mm options also available to meet specific design requirements.

CARYSIL

D'oro Obsidian Worksurface,
CARYSIL Statura PVD Series Sink
CARYSIL Quilt Digital 4-in-1 Hot Tap
CARYSIL Downdraft Induction Hob, Sommelier

Designed to handle the chaos of a modern kitchen

Robust

UV resistant and incredibly hard wearing. It won't fade in the sun or scratch under pressure.

Heat Resistant, Clean & Hygienic

Because it is non-porous, it doesn't harbour bacteria. No resins, no plastics and no VOCs. Just pure, inert minerals.

Our Aravalli surfaces are Cristobalite Free and Low Silica

Effortless Care

Luxury shouldn't be high maintenance. Aravalli stays pristine with just soapy water or a simple household cleaner like Cif.

Guaranteed

We stand by our craftsmanship with a lifetime manufacturing warranty.

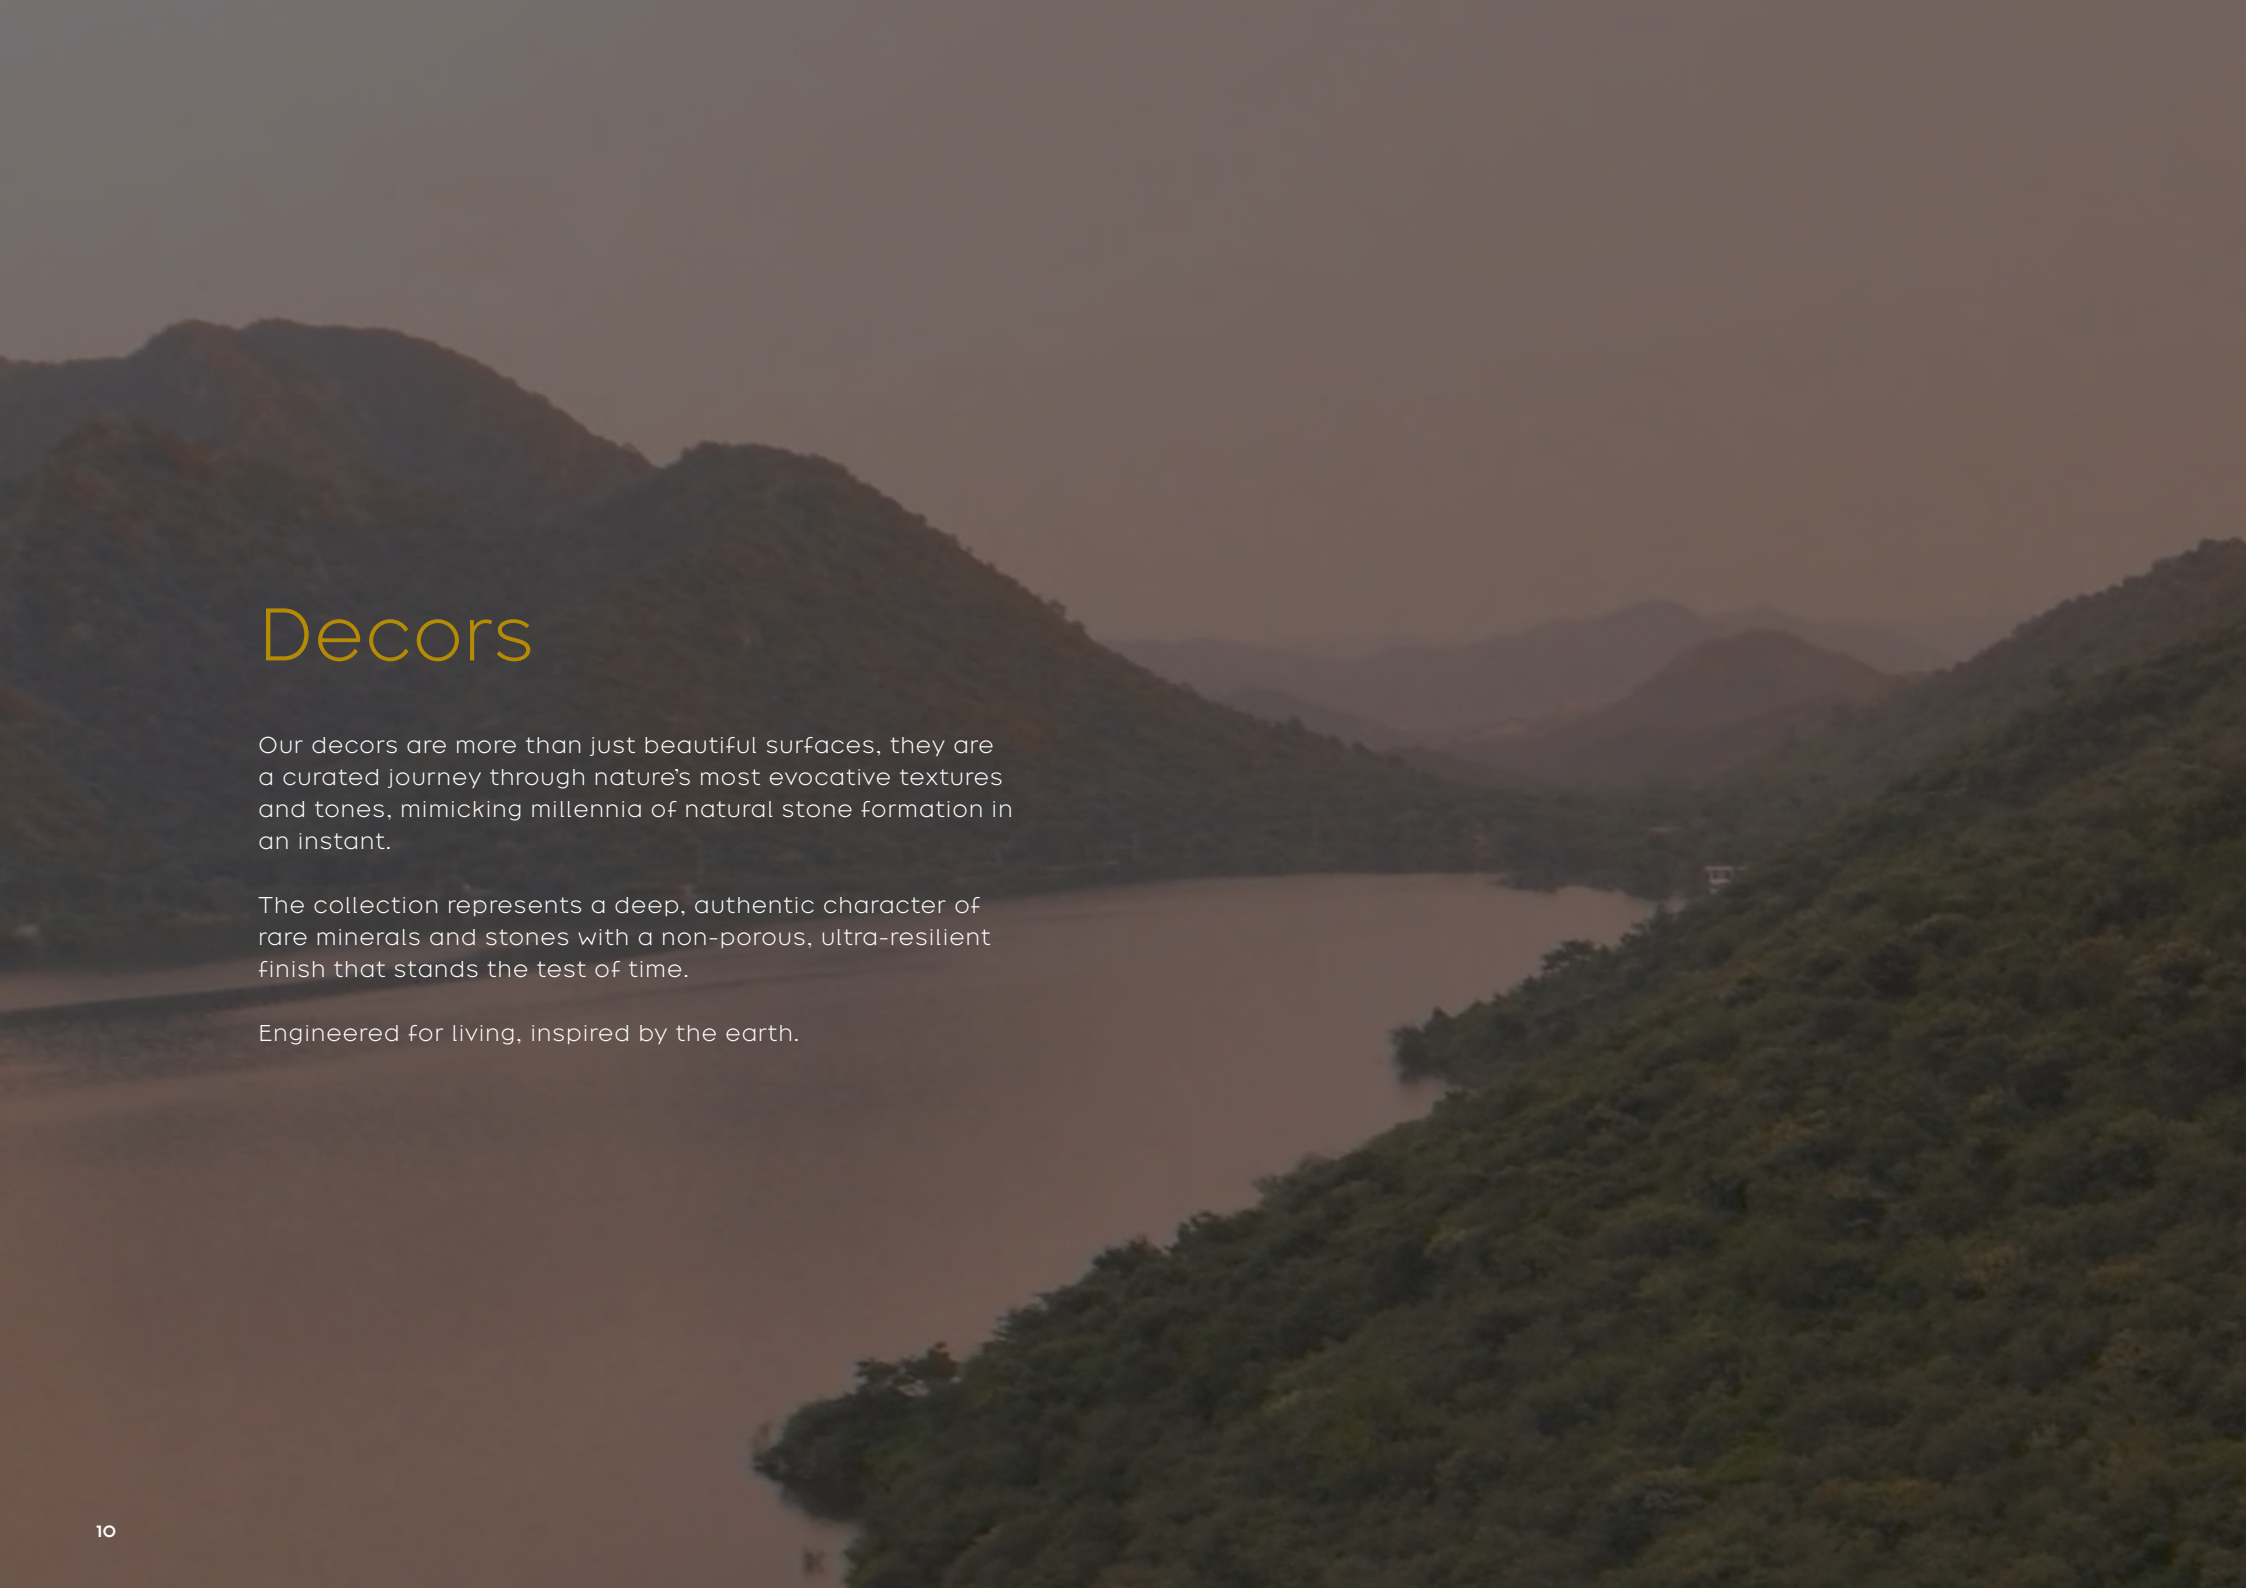

We are proud to be partners with the Worktop Fabricators Federation (WFF), the UK's leading trade body for surface fabrication, dedicated to promoting best practices and workplace safety across the industry.

Milano Worksurface, CARYSIL Crystal Series Sink,
CARYSIL Quilt Digital 4-in-1 Hot Tap, Sommelier

The background of the page is a full-page photograph of a lush, mountainous landscape. A wide river flows through a deep valley, flanked by steep, forested hills. In the far distance, a small town or village is visible on a hillside. The overall tone is serene and natural, with a soft, slightly hazy atmosphere.

Decors

Our decors are more than just beautiful surfaces, they are a curated journey through nature's most evocative textures and tones, mimicking millennia of natural stone formation in an instant.

The collection represents a deep, authentic character of rare minerals and stones with a non-porous, ultra-resilient finish that stands the test of time.

Engineered for living, inspired by the earth.

Natura Grey Worksurface

CARYSIL Quilt Digital 4-in-1 Hot Tap, Sommelier

Milano

Sleek, cosmopolitan and impeccably balanced.
A surface designed for the fashion-forward interior.
Decor can be book matched.

CARYSIL Statura PVD Series Sink,
CARYSIL Quilt Digital 4-in-1 Hot Tap

Rosa Bianco

A romantic whisper of blush and cloud-white, perfect for creating soft, airy sanctuaries.

CARYSIL Sensa Series Sink,
CARYSIL Quilt Twist 4-in-1 Hot Tap
CARYSIL Induction Hob

Taj Mahal

The ultimate quartzite alternative, offering the creamy depth and soft movement of natural stone.

Decor can be book matched.

CARYSIL Crystal Series Sink,
CARYSIL Quilt Twist 4-in-1 Hot Tap
CARYSIL Downdraft Induction Hob

White Macaubus

Striking linear movement and crystalline clarity that adds a sense of infinite scale to any room.

Decor can be book matched.

A scenic landscape photograph of a river valley. The foreground shows a wide, calm body of water, possibly a reservoir or a slow-moving river, reflecting the light. The water is surrounded by steep, forested hillsides. The hills are covered in dense green vegetation. In the background, more mountain ranges are visible, creating a sense of depth. The sky is a pale, hazy blue. The overall tone of the image is serene and natural.

Worksurface Details & Care Guide

Our Low Silica Promise

At CARYSIL, we are proud members of the Worktop Fabricator Federation.

Your home is your sanctuary and the people who build it should be safe. While Aravalli is a low-silica product, its true innovation lies in being 0% Cristobalite Silica (SiO_2).

Through precision controlled cooling, we prevent “devitrification.” This ensures that no Cristobalite Silica (the harmful dust associated with traditional stone cutting) forms within the slab.

Aravalli is a future ready solution that reduces the risk of respirable crystalline silica (RCS) during fabrication. It is fully compliant with international guidelines, Lucidien tested and Certified in the UK, offering you beauty without compromise and peace of mind for the craftsmen in our industry.

Our Aravalli surfaces are
Cristobalite Free and Low Silica

We are proud to be partners with the Worktop Fabricators Federation (WFF), the UK's leading trade body for surface fabrication, dedicated to promoting best practices and workplace safety across the industry.

Bespoke Craftsmanship

Our dedicated fabrication team provide a national template and installation service as standard.

Your surface is measured and pre-finished in a controlled workshop to your exact needs with every detail perfected before being hand fitted just 7 days later. Our advanced mineral composition allows for integrated sink modules, recessed drainer grooves, electrical socket cut outs or perfectly flush-mounted sinks, allowing you to design a truly unique masterpiece.

We ensure your workspace is as functional as it is beautiful and provide a seamless journey from our engineering to immaculate installation.

Supporting the Industry

We're proud to be a corporate member of the KBSA, strengthening our support for independent retailers.

CARYSIL Quilt Twist 4-in-1 Hot Tap

Conscious Design, Engineered for Longevity

Aravalli combines the majesty of large-format Sintered Stone with a deep commitment to sustainable design. Our generous 3,200mm x 1,600mm slabs provide the freedom to create seamless statement features, from sleek kitchen islands to elegant waterfall gables, with fewer joins.

Every Aravalli slab undergoes a specialised pre-tension cut at the factory. This critical process removes inherent slab tension from the Sintered Stone, ensuring unparalleled structural stability. It makes our surfaces exceptionally durable and ideal for longevity, offering a distinct engineering advantage over other standard Sintered Stone and porcelain alternatives.

Sustainability is woven into our process. Through our expert templating, we meticulously plan each cut to ensure optimal material is utilised and drastically reduce offcuts.

By prioritising precision engineering and longevity, we honour the earth by minimising waste, ensuring your design is as responsible as it is refined.

Cleaning

Aravalli is designed to be lived on. The high-pressure sintering process creates a surface so compact it repels liquids and household stains, so keeping your surface pristine is simple.

A touch of water and a neutral household soap is all that's required to maintain its original lustre. Simply rinse with clear water and dry with a soft cloth or paper towel to reveal a streak-free, hygienic finish every time.

Simple, honest care.
